01

SECTION TITLE

Slide Title

Key Point

Introduce the topic and its key message.

Key Point

Explain the context or motivation.

Key Point

Outline the method, steps or design.

Key Point

Note conditions and limitations.

Key Point

Add evidence or an illustrative example.

Key Point

Summarize the takeaway or next steps.

Slide Title

A. State the first point and connect it to the topic. Add the context or motivation.

B. Explain the second point. Outline the method, design or steps in the analysis.

C. Describe the third point. Support it with evidence, a figure or an example.

D. Summarize the fourth point. Note conditions, limitations or questions for further study.

Slide Title

Topic A

Describe the first topic and add evidence or an example. Explain how it relates to the second topic.

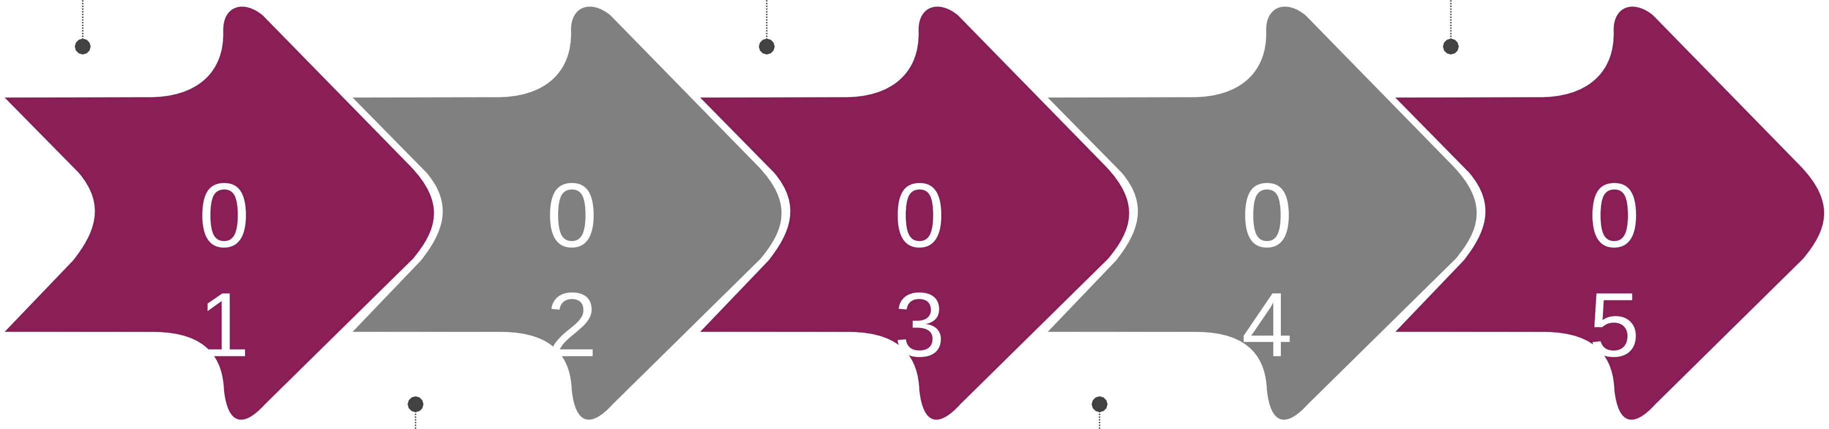
Topic B

Describe the second topic and add evidence or an example. Compare their strengths, conditions and limitations.

Slide Title

Describe this step, its input and its output.

Describe this step, its input and its output.



Describe this step, its input and its output.

Describe this step, its input and its output.

Describe this step, its input and its output.

02

SECTION TITLE

Slide Title

01 **Point**

Introduce the first point and its context. Explain the issue, add supporting evidence and state the key message.

02 **Point**

Introduce the second point and its approach. Explain the method or analysis, note the conditions and connect it to the overall topic.

03 **Point**

Introduce the third point and its significance. Summarize the evidence, clarify its scope and identify questions for discussion.

Slide Title

Stage

Add the task, timing and deliverable for this stage.

Stage

Add the task, timing and deliverable for this stage.

Stage

Add the task, timing and deliverable for this stage.

Stage

Add the task, timing and deliverable for this stage.

Slide Title

Point 1

Describe the point and its context.

Point 2

Add the motivation or goal.

Point 3

Outline the method or steps.

Point 4

Include evidence or an example.

Point 5

State conditions and limitations.

Point 6

Summarize implications or next steps.

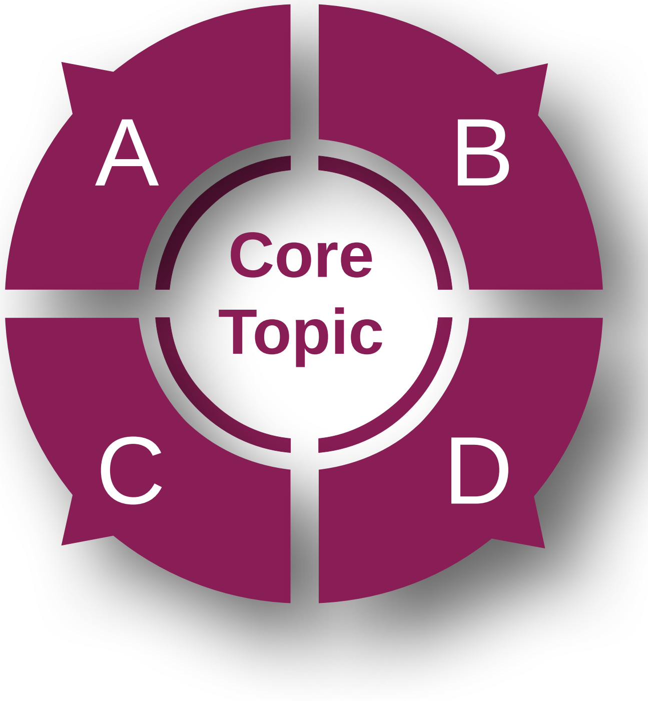
Slide Title

Key Point

Describe this element and its role. Explain how it supports the central topic and add relevant evidence.

Key Point

Describe this element and its role. Explain its links to the other elements and note the conditions.



Key Point

Describe this element and its role. Use an example to explain the key relationship clearly.

Key Point

Describe this element and its role. Summarize its contribution and what remains to be improved.

Slide Title

Topic 1

Introduce the first topic. Explain the context, main idea and supporting evidence. Use the diagram to clarify its relationship to the other topic. Add conditions, limitations or questions for discussion as needed.

Topic 2

Introduce the second topic. Explain the context, main idea and supporting evidence. Compare it with the other topic. Add relevant examples and identify questions that merit further study.

03

SECTION TITLE

Slide Title

01 **Topic 1**

Introduce the first topic and its context or motivation. Highlight the most important message.

02 **Topic 2**

Describe the second topic and its method or evidence. Connect it to the overall presentation.

03 **Topic 3**

Describe the third topic and its implications. Note its scope and possible next steps.

Slide Title

Stage

Describe the main task, required inputs and expected output for this stage.

Stage

Explain the method and key steps. State the rationale for the design.

Stage

Describe the deliverable and how to evaluate it. Add the next steps.

Slide Title

Step

State the goal and input for this step. Define the problem to address.

Step

Describe the method and key actions. Explain the design rationale.

Step

Describe the result and how to assess it. Note the required conditions.

Step

Summarize the output and next steps. Clarify what follows.

Slide Title

1

Key Point

Describe this aspect. Note limitations or implications and identify next steps.

2

Key Point

Describe this aspect. Add evidence and highlight the main point.

3

Key Point

Describe this aspect. Add a result or observation and clarify its scope.

4

Key Point

Describe this aspect. Add a method or example and connect it to the overall topic.

Slide Title

Summarize the central message in one or two sentences, then expand on it in the four groups below. Replace all placeholders with your own content.

Key Point

- Main point
- Evidence
- Next steps

04

SECTION TITLE

Slide Title

Key Point

Describe what the image shows and connect it to the topic. Add relevant context, observations or source details.

Key Point

Develop the analysis or discussion. Highlight a notable feature, explain its significance and identify open questions.

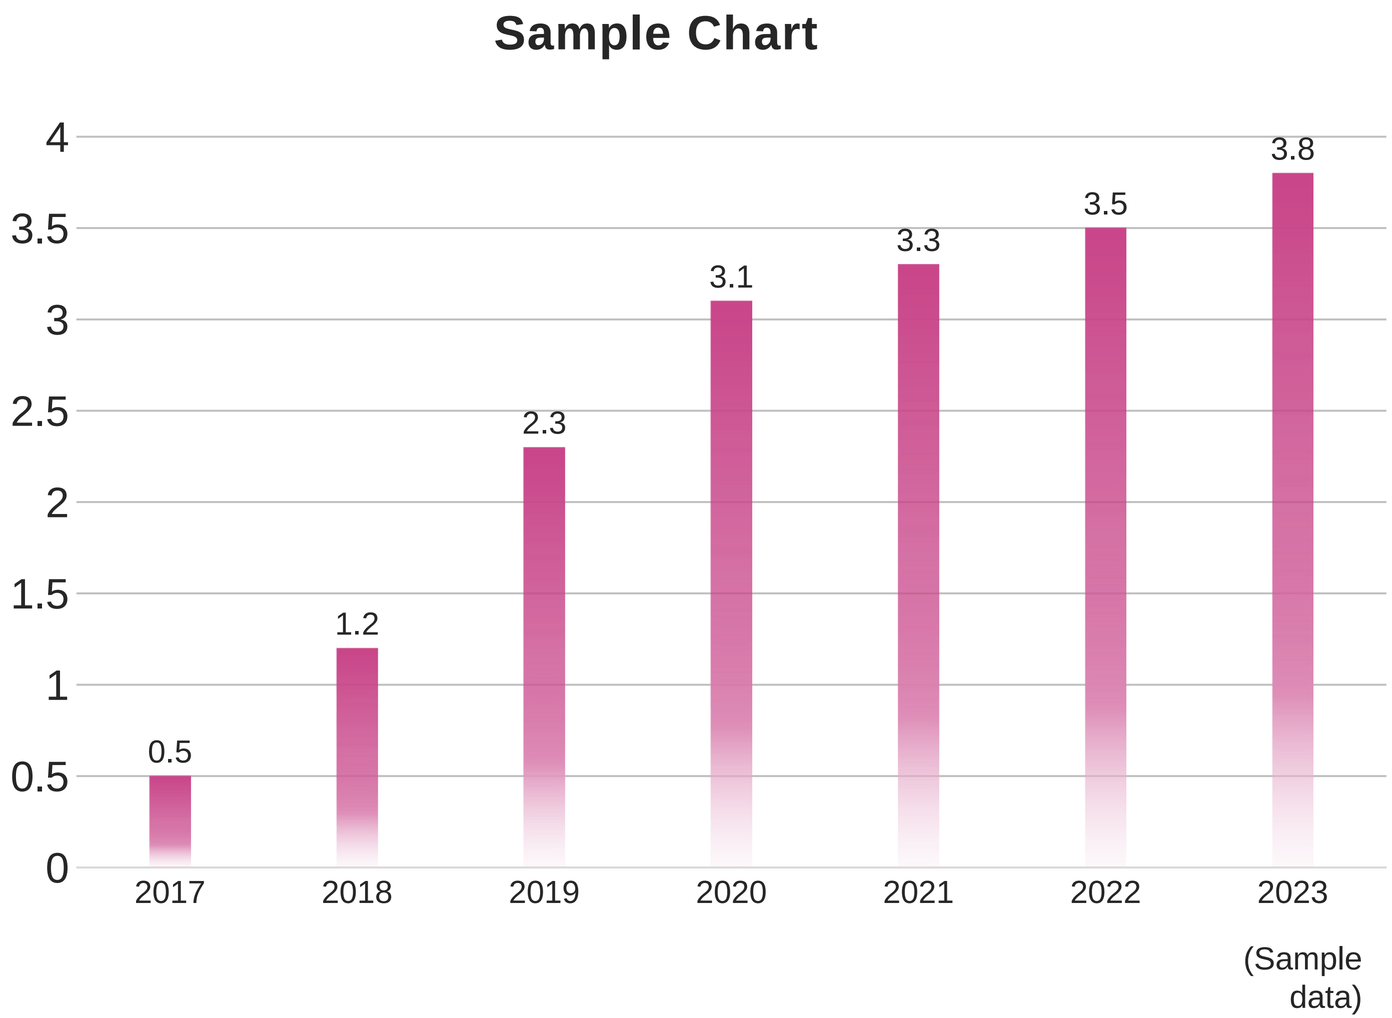
Key Point

Describe the first image or topic. Highlight the key observation, add context or a source, and connect it to the second topic.

Key Point

Describe the second image or topic. Highlight the key observation, add context or a source, and compare the two.

Slide Title



> Sample values illustrate the chart style only. Replace them with actual results and specify the metric, unit and source.

Key Point

Describe the most important pattern or change.

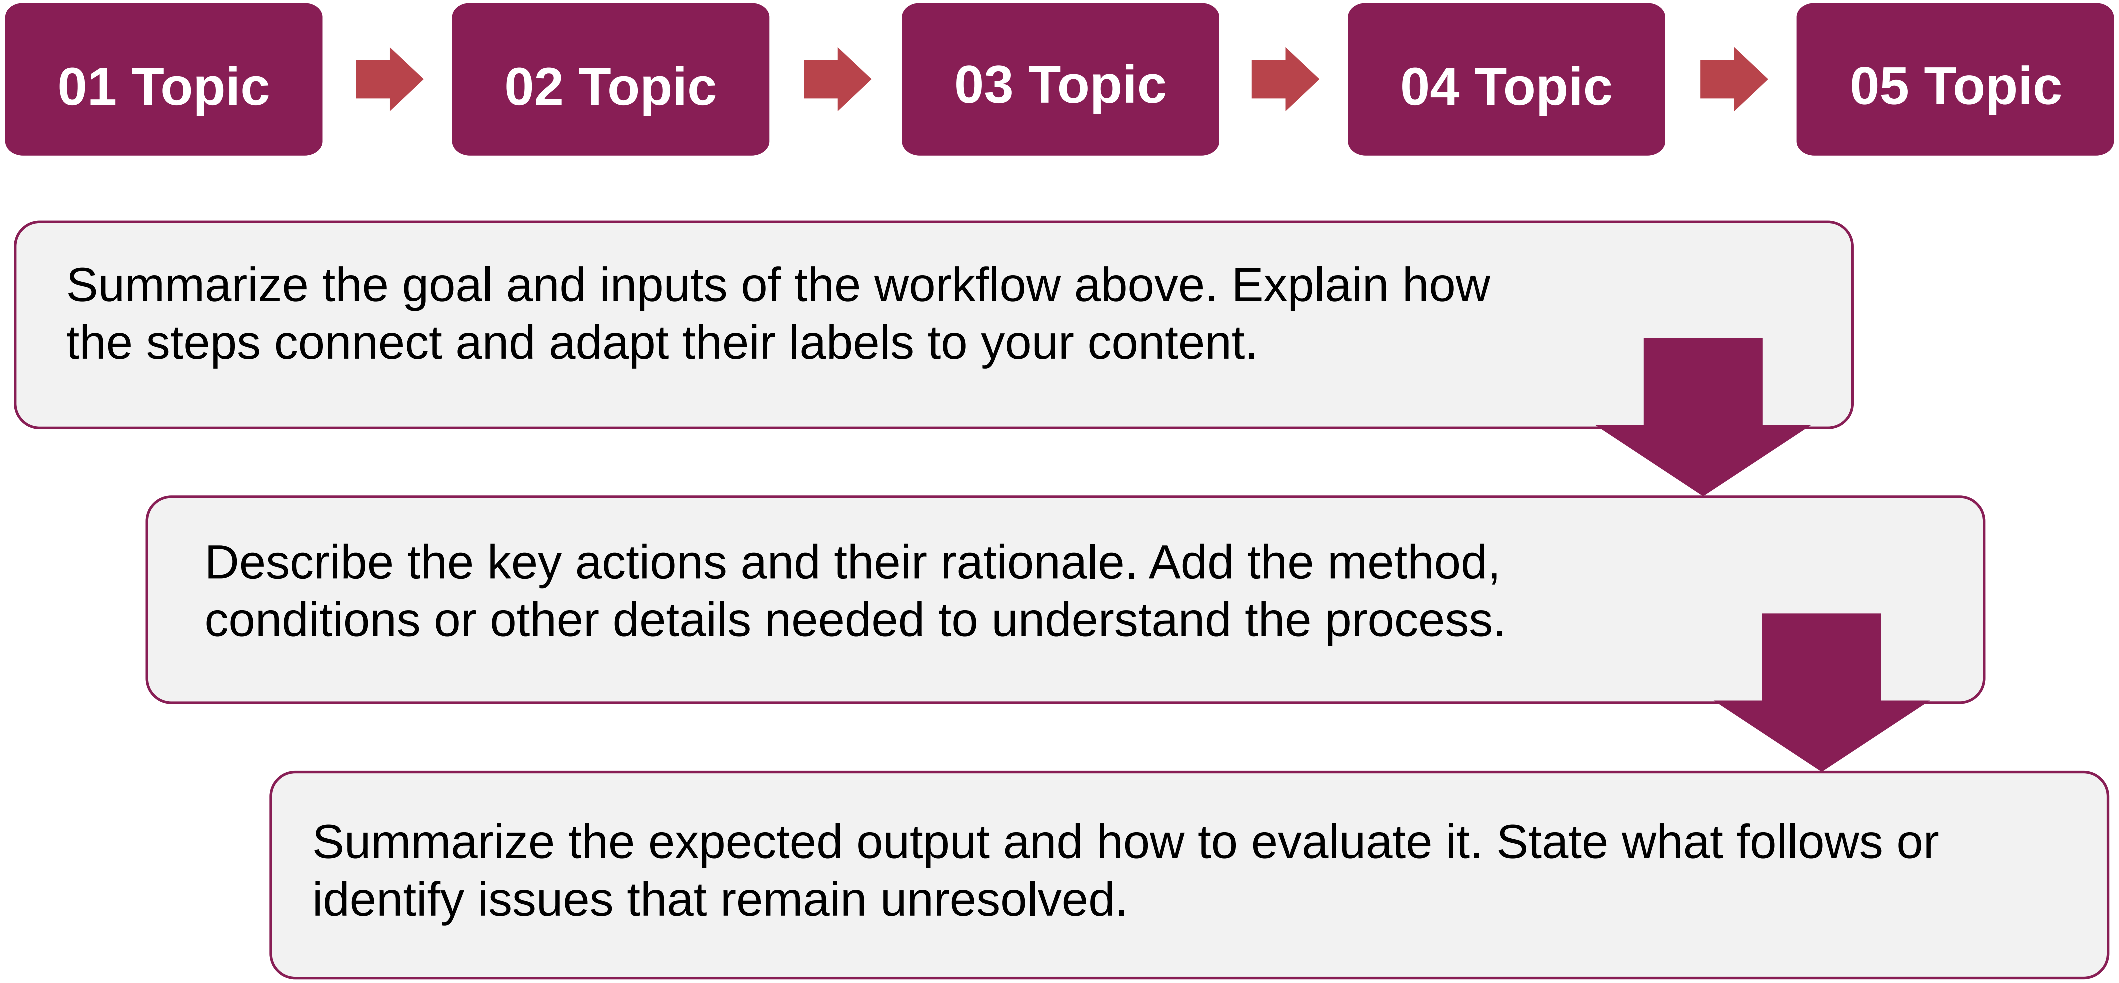
Key Point

Explain the basis and conditions for comparison.

Key Point

State the supported conclusion and its limits.

Slide Title



01 Topic → 02 Topic → 03 Topic → 04 Topic → 05 Topic

Summarize the goal and inputs of the workflow above. Explain how the steps connect and adapt their labels to your content.

Describe the key actions and their rationale. Add the method, conditions or other details needed to understand the process.

Summarize the expected output and how to evaluate it. State what follows or identify issues that remain unresolved.

Slide Title

Key Point

Develop the first point. State the main idea, then add context, a method or supporting evidence. Include a brief example where useful. Connect the discussion to the slide topic and remove details that do not support the message.

Key Point

Develop the second point. Organize the discussion around the main idea, add evidence or observations and explain what they support. Note relevant conditions, limitations or sources as needed.

Key Point

Develop the third point. Summarize the key information and connect the conclusion to the research goal. Add future work, open questions or specific actions where appropriate. Keep the structure clear and the wording concise.

Slide Title

01
State the goal, main task and expected outcome for this stage.

02
Describe the method, key steps and conditions for this stage.

03
Describe the result, evaluation and considerations for this stage.

04
Summarize the deliverable and next steps for this stage.

Template Guide

Duplicate the layouts you need and replace the placeholder content.

Keep image proportions. Use Change Picture to replace a photograph.

Slide 23 contains sample data. Use Edit Data to update the chart.

Chinese text uses PingFang SC and English uses Arial. Check line breaks.

This guide is hidden from the slide show.

Logo and campus image sources appear in the relevant slide notes.
